HEALTH & NUTRITION

Unit	2022	2023	2024	Target	Target Year	Baseline	Externally verified	Corresponding GRI standards	ESRS	Related UNGC principle	SASB
------	------	------	------	--------	-------------	----------	---------------------	-----------------------------	------	------------------------	------

FOOD SAFETY & QUALITY

Food Safety production sites scope

Number of production sites included in the Food Safety sites scope (Danone plants and controlled Joint Ventures)	Number of production sites	178	161	151				✓		S4		
--	----------------------------	-----	-----	-----	--	--	--	---	--	----	--	--

FSSC 22000 certification ^(a)

Number of FSSC 22000 certification audits completed by independent certification bodies	Number of audits	166	152	150				✓	Disclosure 416-1	S4		
FSSC 22000 certification rate	Number of sites certified/Total Production Sites under Food Safety scope	95%	96%	94%				✓	Disclosure 416-1	S4		
GFSI certification for suppliers	% of suppliers		93%	96%								
GFSI certification for subcontractors	% of subcontractors		91%	92%								

^(a) FSSC 22000 is a food safety certification recognized by the Global Food Safety Initiative

Internal Food Safety Audits

Number of food safety audits conducted in-house by the Global Food Safety Audit team	Number of audits	72	67	66				✓	Disclosure 416-1	S4		
--	------------------	----	----	----	--	--	--	---	------------------	----	--	--

HEALTH & NUTRITION

One Health scorecard scope ^(a)

Number of subsidiaries included in the One Health scorecard scope	Number of subsidiaries	79	92	96				✓		S4		
Percentage of consolidated sales reporting health & nutrition indicators	% of consolidated sales	90%	94.50%	97.8%				✓		S4		

^(a) Refer to our Methodology Note in the appropriate section of the URD.

BETTER PRODUCTS: IMPROVE OUR OFFER

Healthy categories of products ^(a)

ATNI ranking	Rank	#4	#2	#1				✓		S4		
Percentage of volumes of products sold in healthy categories	Volumes in healthy categories/Total volumes sold	91%	90.3%	89.4%				✓		S4		

^(a) Volumes sold in healthy categories corresponds to: Dairy & Plant Based products intended for daily consumption; Specialized Nutrition Category products (except biscuits and beverages for children under 3 years of age and foods for children over 3 years of age in the early life nutrition activities); All plain waters and flavored waters with 0% sugar.

Better products

Percentage of volumes sold without added sugars ^(a)	%	82%	81.2%	80.4%				✓	FP6	S4		
--	---	-----	-------	-------	--	--	--	---	-----	----	--	--

	Unit	2022	2023	2024	Target	Target Year	Baseline	Externally verified	Corresponding GRI standards	ESRS	Related UNGC principle	SASB
Percentage of volumes of Dairy and Plant-Based products directed at children with ≤ 10 g of total sugars /100g	%	58%	62.2%	78.5%	> 95%	2025		✓		S4		
Percentage of volumes of toddlers' milks (1-3 yo) with ≤ 1.25g added sugars /100kcal	%	99%	99.3%	99%	> 95%	2025		✓		S4		
Percentage of volumes of Kids Dairy products fortified with relevant vitamins and minerals	%	88% fortified only	83.2%	89.8%	≥ 85%	2025		✓		S4		
Number of projects to address iron deficiency in children	Number of projects	n/a	2	4	5	2025						
Volumes of EDP everyday adults products with <10g of sugar /100g	%	72%	75%	75%	≥ 76%	2027		✓	Disclosure 416-1	S4		
Volumes of formula milks intended for 4-5 year-olds with ≤2g added sugars/100kcal	%		94.5%	94.9%		2025		✓	Disclosure 416-1	S4		

(a) This percentage is calculated for all product categories in the Essential Dairy and Plant-Based, Waters and Specialized Nutrition Categories. Medical nutrition products are excluded. The products included in this indicator are those whose added sugar content is less or equal to 0.5 grams.

BETTER CHOICES: DRIVE DEMAND

Nutritional labeling

Volumes from products providing interpretative nutritional information on pack	%	22%	40.5%	71.5%	> 95%	2025		✓		S4		
Percentage of volumes sold from products scoring 3,5 stars or more in Health Star Rating ^(a)	%	88%	89.2%	87.7%	≥ 85%	2025		✓		S4		

(a) This percentage is calculated for the categories Essential Dairy and Plant-Based and Aquadrinks. It excludes countries where regulations prohibit the publication of this information, as well as countries where there is an ongoing public debate on the choice of an appropriate front-of-pack labeling scheme.

Responsible Company practices

Number of employees trained on the Danone Policy for the Marketing of Breast Milk Substitutes ^(a)	Number of employees	6,171	6,349	6,104				✓		S4		
Entities that monitor their compliance with the Marketing to Children Pledge	%			85%				✓	Disclosure 417-1	S4		
Television advertising spots compliant with EU pledge criteria	%			99.6%				✓	Disclosure 417-1	S4		
Number of projects developed to support women's choice to breastfeed	Number of projects		1	3	5	2025		✓		S4		
Number of scientific publications in peer-reviewed journals and/or presentations at scientific conferences	Number		108	114								

(a) Refer to the Methodology Note in the appropriate section of the URD.

BETTER CHOICES: ACCESSIBILITY AND AFFORDABILITY

Volumes sold in countries classified by the UN as developing economies and economies in transition	%		70%	68%				✓		S4		
Countries where Danone has at least one healthy product targeting middle or low income population	%			48.5%								

NATURE

	Unit	2022	2023	2024	Target	Target Year	Baseline	Externally verified	Corresponding GRI standards	ESRS	Related UNGC principle	SASB
--	------	------	------	------	--------	-------------	----------	---------------------	-----------------------------	------	------------------------	------

Production Site Environment scope ^(a)

Total number of sites in the Production Site Environment scope	Number of sites	174	153	151				✓		E1, E2, E3		
--	-----------------	-----	-----	-----	--	--	--	---	--	------------	--	--

(a) Refer to Methodology Note in the appropriate section of the URD.

ISO 14001 certification ^(a)

Total number of ISO 14001 certified sites	Number of sites	84	79	78				✓		E2		
Percentage of ISO 14001 certified sites	%	48%	51%	52%				✓		E2		
Percentage of volumes covered by ISO 14001 certification	%	68%	69%	69%				✓		E2		

(a) Production Site Environment Scope (refer to Methodology Note in the appropriate section of the URD).

GREEN audit ^(a)

Percentage of sites undergone a GREEN audit	%	71%	71%	75%				✓		E2		
Number of sites undergone a GREEN audit	Number of sites	123	108	114				✓		E2		
Percentage of production covered by a GREEN audit	%	82%	86%	90%				✓		E2		
Number of sites compliant with GREEN standards (ranked A or B)	Number of sites	105	93	91				✓		E2		
Percentage of sites compliant with GREEN standards ranked A or B	%	85%	86%	80%				✓		E2		
Percentage of compliant production	%	93%	91%	89%				✓		E2		

(a) GREEN (Global Risk Evaluation for the Environment) program of external audits world-wide to identify and monitor the main environmental risks related to the production sites (see 2024 Universal Registration Document).

NATURE

CO2 EMISSIONS SCOPE 1, 2 AND 3

Scope 1 & 2 emissions market-based ^(a)

Total Scope 1 & 2	Ktons CO ₂ equivalent	72%	75%	684				✓		E1		
Absolute energy and industrial emissions evolution, scopes 1 and 2, market-based since 2020	%	-18%	-20.7%	-34.5%	-46.2%	2030	2020	✓	Disclosure 305-5	E1		

(a) Greenhouse Gases Scope and SBT scope (refer to Methodology Note in the appropriate section of the URD).

Greenhouse gas emissions in scope 3 ^(a)

Purchased goods and services	Ktons CO ₂ equivalent	18.708	16,589	14,849				✓	Disclosure 305-3	E1	Principle 7,8	
Upstream transportation and distribution of goods	Ktons CO ₂ equivalent	336	303	276				✓	Disclosure 305-3	E1	Principle 7,8

"RSPO Mass Balance" certified palm oil	%	9%	3%	2.20%				✓	Disclosure 308-2	E5		
Volumes of palm oil that can be traced to mill level	%		99.3%	100%				✓	Disclosure 308-2	E5		
Volumes of palm oil that can be traced to plantation level	%		99.8%	98%				✓	Disclosure 308-2	E5		

Unit	2022	2023	2024	Target	Target Year	Baseline	Externally verified	Corresponding GRI standards	ESRS	Related UNGC principle	SASB
------	------	------	------	--------	-------------	----------	---------------------	-----------------------------	------	------------------------	------

Paper and board for packaging ^(a)

Percentage of paper and board packaging made of recycled fibers or virgin certified fibers (FSC, PEFC, SFI)	%	99%	99%	99%			✓	Disclosure 301-2	E5	Principle 7,8	
---	---	-----	-----	-----	--	--	---	------------------	----	---------------	--

(a) Packaging Scope (refer to Methodology Note in the appropriate section of the URD).

Soy

ProTerra segregated soybean	%			83.5%			✓	Disclosure 308-2	E5		
Soybeans used for the Alpro brand ProTerra certified	%		100%	100%				Disclosure 308-2			

REGENERATIVE AGRICULTURE

REGENERATIVE AGRICULTURE PRACTICES

Percentage of fresh milk volumes worldwide assessed through Danone's welfare assessment tool or via Validus Animal Welfare certification in Essential Dairy and Plant-Based Business ^(a)	%	80%	91%	86%			✓	Disclosure 308-2	G1		
Volumes of key ingredients sourced directly from farms that have begun their transition regenerative agriculture	%			39%	30%	2025	✓	Disclosure 308-2	E1, E2, E3, E4, E5		

CIRCULAR ECONOMY

Post-consumer Packaging ^(a)

Tons of plastic used by Danone	Tons			670,107			✓		E5		
Total weight of Packaging	Tons	1,584,001	1,393,759	1,397,960			✓	Disclosure 301-1	E5		✓
Percentage of total packaging being reusable, recyclable or compostable (primary, secondary & tertiary packaging) ^(b)	%	84%	84%	85%	100%	2025	✓		E1, E2, E5	Principle 7,8	✓
Percentage of total plastic packaging being reusable, recyclable or compostable	%	74%	74%	76%			✓		E2, E5	Principle 7,8	
Percentage of packaging coming from recycled materials (primary, secondary & tertiary packaging) ^(b)	%	35%	34%	37.40%	50%	2025	✓	Disclosure 301-2	E5	Principle 7,8	✓
Percentage of recycled materials in plastic packaging	%	11.9%	14.6%	16.8%			✓	Disclosure 301-2	E1, E5	Principle 7,8	
Percentage of recycled PET in Waters Business where local standards and regulations allow	%	26.4%	31.3%	36.6%			✓	Disclosure 301-2	E5	Principle 7,8	
Percentage of recycled PET in Waters Business worldwide	%	21.0%	23.8%	29.2%	50%	2025	✓	Disclosure 301-2	E5	Principle 7,8	
Percentage of plastic put on the market recovered	%	56%	58%	60%	100%	2040	✓	Disclosure 301-3	1, E1, E2, E5		
Reduction in the use of fossil-based packaging since 2020	%			8%	50%	2050	✓		E2, E5		

	Unit	2022	2023	2024	Target	Target Year	Baseline	Externally verified	Corresponding GRI standards	ESRS	Related UNGC principle	SASB
Reduction in absolute terms of plastic packaging use since 2018	%			11%				✓		E5		
Units of plastic straws removed or replaced since 2018	# of units		3 billion	3.7 billion								
Units of plastic spoons removed or replaced since 2018	# of units			30 million								
Number of Reuse pilots launched in Waters, EDP, SN categories				15				✓		E5		

(a) Packaging Scope (refer to Methodology Note in the appropriate section of the URD).

(b) SASB definition in the Standard is only on primary & secondary packaging, when Danone reports primary, secondary packaging and tertiary packaging

Industrial waste ^(a)

Total quantity of industrial waste	in ktors	344 ^(b)	323	330				✓	Disclosure 306-2	E5	Principle 7,8	
Proportion of industrial waste recovered	%	93.5% ^(b)	94.4%	95%				✓	Disclosure 306-2	E5	Principle 7,8	

(a) Production Site Environment Scope (refer to Methodology Note in the appropriate section of the URD).

Industrial Packaging waste

Proportion of packaging industrial waste recovered	%	98.4%	99%	98.9%				✓	Disclosure 306-2	E5	Principle 7,8	
Proportion of plastic packaging waste recovered	%	98.2%	99%	99%				✓	Disclosure 306-2		Principle 7,8	

Management of industrial waste

Total amount of waste diverted from disposal	in ktors		306	313				✓	Disclosure 306-2	E5	Principle 7,8	
Amount of waste diverted from disposal in preparation for reuse ^(a)	in ktors			4				✓	Disclosure 306-2	E5	Principle 7,8	
Amount of waste diverted from disposal for recycling	in ktors			99				✓	Disclosure 306-2	E5	Principle 7,8	
Amount of waste diverted from disposal for other recovery operations	in ktors			214				✓	Disclosure 306-2	E5	Principle 7,8	
Total amount of waste directed to disposal:	in ktors		18.4	18.1				✓	Disclosure 306-2	E5	Principle 7,8	
Amount of waste directed to disposal for incineration	in ktors			0.60				✓	Disclosure 306-2	E5	Principle 7,8	
Amount of waste directed to disposal for landfill	in ktors			3.90				✓	Disclosure 306-2	E5	Principle 7,8	
Amount of waste directed to disposal for other disposal operations	in ktors			13.60				✓	Disclosure 306-2	E5	Principle 7,8	

(a) The waste diverted from disposal in preparation for reuse is not taken into account in total industrial waste as it is diverted from waste disposal for donations, which has historically not been considered by Danone as a waste

	Unit	2022	2023	2024	Target	Target Year	Baseline	Externally verified	Corresponding GRI standards	ESRS	Related UNGC principle	SASB
--	------	------	------	------	--------	-------------	----------	---------------------	-----------------------------	------	------------------------	------

Total food waste in our operations (Industrial and supply chain) ^{(a) (b)}

Proportion of recovered food waste	%	83%	88%	88.5%				✓	Disclosure 306-2	E5	Principle 7,8	
Ratio of total quantity of food waste per metric ton of product sold, excluding waste intended for animal feed and the processing of biomaterials (in kg/tons) - SDG 12.3	Kg/ton of product sold	21.2	20.3	21.1				✓		E5		
Evolution of the total quantity of food waste per metric ton of product sold, excluding waste intended for animal feed and the processing of biomaterials - SDG 12.3, since 2020 on a like-for-like basis	%	-13.5%	-19.8%	18.1%				✓		E5		

(a) Production Site Environment scope and Scope 3 downstream, see Methodology Note in the appropriate section of the URD.

(b) Excludes Waters Reporting Entity sites.

Food waste post-consumer

DANONE

Limited assurance report by the statutory auditor on a selection of information published in the “Exhaustive extra-financial data”

Financial year ending 31 December 2024

Limited assurance report by the statutory auditor on a selection of information published in the “Exhaustive extra-financial data”

Financial year ending 31 December 2024

In our capacity as statutory auditor of **DANONE** (hereinafter the “**Company**”), and in accordance with your request, we have undertaken a limited assurance engagement on a selection of information, identified by the sign √ in the document “Exhaustive 2024 extra-financial data”, attached to the report in Appendix 1, prepared in accordance with the Company’s procedures (hereinafter the “**Framework**”), for the financial year ended December 31st, 2024.

Our assurance does not extend to information in respect of earlier periods or to any other information included in the Report.

Limited assurance conclusion

Based on the procedures we have performed, as described in the section “Nature and scope of our work” and the evidence we have collected, nothing has come to our attention that causes us to believe that the Information is not prepared, in all material respects, in accordance with the Framework.

Understanding how Company has prepared the Information

The absence of a commonly used generally accepted framework or a significant body of established practice on which to draw to evaluate and measure Information allows for different, but acceptable, measurement techniques that can affect comparability between entities and over time.

Consequently, the Information needs to be read and understood in conjunction with the Framework, which the Company has used to prepare the Information.

Inherent limitations in preparing the Information

The Information may be subject to inherent uncertainty to the state of scientific and economic knowledge and the quality of external data used. Some information is sensitive to the choice of methodology and the assumptions and/or estimates used for its preparation and presented in the Framework.

Company's responsibilities

Management of the Company are responsible for:

- selecting or establishing suitable criteria for preparing the Information;
- preparing the Information in accordance with the Framework;
- designing, implementing and maintaining internal control over information relevant to the preparation of the Information that is free from material misstatement, whether due to fraud or error.

Responsibility of the statutory auditor

We are responsible for:

- planning and performing the engagement to obtain limited assurance about whether the Information is free from material misstatement, whether due to fraud or error;
- forming an independent conclusion, based on the procedures we have performed and the evidence we have obtained; and
- reporting our limited conclusion to the Company.

However, we have no responsibility to challenge the assumptions of the Company's management to produce the Information, and, in particular, we give no interpretation on the Framework.

As it is our responsibility to express an independent conclusion on the Information as prepared by management, we are not permitted to be involved in the preparation of the Information as this could compromise our independence.

Applicable professional standards

We have performed a limited assurance engagement in accordance with the professional guidance issued by the French Institute of Statutory Auditors (Compagnie Nationale des Commissaires aux Comptes) applicable to such engagement and the International Standard on Assurance Engagements 3000 (Revised) – *Assurance Engagements other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board (IAASB).

Independence and quality control

Our independence and other ethical requirements are defined by the provisions of article L. 822-11 of the French Commercial Code (*Code de commerce*) and the French Code of Ethics for Statutory Auditors (*Code de déontologie*). We have also complied with the requirements of the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code), which is based on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional conduct.

In addition, we apply International Standard on Quality Management 1 (ISQM1) and, accordingly, implement a system of quality management including documented policies and procedures regarding compliance with the applicable legal and regulatory requirements, ethical requirements and professional standards.

Our work was carried out by an independent and multidisciplinary team with experience in sustainability reporting and assurance.

Nature and scope of our work

We are required to plan and perform our work to address the areas where we have identified that a material misstatement of the Information is likely to arise. The procedures we performed were based on our professional judgment.

In carrying out our limited assurance engagement on the Information we:

- understood the procedures implemented by the Company for producing the Information by inquiries of management;
- evaluated the suitability in the circumstances of the Framework, as the basis for preparing the Information;
- through inquiries, obtained an understanding of Company's control environment, processes and information systems relevant to the preparation of the Information, being specified that we did not i) evaluate the design of particular control activities, ii) obtain evidence about their implementation or iii) test their operating effectiveness;
- for each Information:
 - verifying the compliance of the calculation method of Information with the one set out in the Framework;
 - performing analytical procedures to verify the proper consolidation of the data collected and the consistency of any changes in those data;
 - performing substantive tests, on a sample basis and using other selection methods, to verify its consistency with supporting documents, as appropriate; and
 - verifying the arithmetical accuracy of the Information set out in the Report, after giving effect to rounding, if applicable.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement.

The statutory auditor,

Forvis Mazars & Associés
